

January 2018

---

**KMAP GENERAL BULLETIN 17286**

## HCPSC 2018 Modifier Updates

With the 2018 HCPCS updates, modifier FY was created to identify claims where an X-ray was taken using computed radiography technology/cassette-based imaging.

For dates of service on and after January 1, 2018, payment for the technical component of procedures submitted with modifier FY will be reduced by 7%.

The appropriate updates will be made in the *Coding Modifiers Table* and additional notification will be sent.

**Note:** The effective date of the policy is January 1, 2018. The implementation of State policy by the KanCare managed care organizations (MCOs) may vary from the date noted in the Kansas Medical Assistance Program (KMAP) bulletins. The **KanCare Open Claims Resolution Log** on the [KMAP Bulletins](#) page documents the MCO system status for policy implementation and any associated reprocessing completion dates.
