## Additional information on ClaimCheck® upgrade to ClaimsXten™

Amerigroup previously announced plans to upgrade from ClaimCheck to the ClaimsXten auditing system in the second quarter of 2017.

This upgrade will continue to ensure claims auditing remains consistent with accepted industry coding standards. However, claim results may present differently than those processed in the earlier software even though the end result is the same.

The new software uses a set of explanation codes that differ from those currently in use. Along with the new explanation codes, any updated associated descriptive text will

display on the provider *Explanation of Payment (EOP)* or *Clear Claim Connection* explaining the edits applied to the submitted claim, just like today.

You may notice another difference on the *EOP* when ClaimsXten applies an edit based on the number of units billed. Currently, claims receiving an audit due to units that exceed the maximum allowed are displayed on two separate lines. The new software will still show separate lines for claims with less than 100 units, but claims with units billed greater than 100 will be displayed on a single line showing the reimbursement amount and the number of allowed units.

If you have questions regarding ClaimsXten edits you receive on your *EOP*, please call Provider Services at 1-800-454-3730.

*ClaimCheck* and *ClaimsXten* are registered trademarks of McKesson Technologies Inc. and McKesson Health Solutions LLC, respectively.

## Genetic testing services to require prior authorization

Effective May 1, 2017, genetic testing services for epidermal growth factor receptor (EGFR) testing, prothrombin G20210A (factor II) mutation testing, methylenetetrahydrofolate reductase mutation testing and cell-free fetal DNA-based prenatal testing require prior authorization (PA).

### What is the impact of this change?

For dates of service on or after May 1, 2017, PA is required for EGFR testing, prothrombin G20210A (factor II) mutation testing, methylenetetrahydrofolate reductase mutation testing and cell-free fetal DNA-based prenatal testing covered by Amerigroup for Statewide Medicaid Managed Care Managed Medical Assistance (SMMC MMA) members. Federal and state law as well as state contract language and CMS guidelines, including definitions and specific contract provisions/exclusions, take precedence over these PA rules and must be considered first when determining coverage. **Noncompliance with new requirements may result in denied claims.**

PA requirements will be added to the following codes:

- 81235
- 81291
- 81420
- 81507
- 0009M

To request PA, contact us by phone at 1-800-454-3730 or by fax at 1-800-964-3627.

Not all PA requirements are listed here. Detailed PA requirements are available to contracted providers on the provider self-service website (<https://providers.amerigroup.com/FL> > Provider Resources & Documents > Quick Tools > Precertification Lookup Tool).

## Interactive Care Reviewer tool: Register and start using today!

Beginning March 18, 2017, your practice can initiate online preauthorization requests for Statewide Medicaid Managed Care Managed Medical Assistance members more efficiently and conveniently with our Interactive Care Reviewer (ICR) tool available through the Availity Web Portal. The ICR offers a streamlined process to request inpatient and outpatient procedures through the Availity Web Portal. There are no changes to the preauthorization capabilities on the provider website (<https://providers.amerigroup.com/FL>).

### How do I gain access to the ICR?

You can access our ICR tool via the Availity Web Portal. If your organization has not yet registered for Availity, go to [www.availity.com](http://www.availity.com) and select **Register** in the upper right-hand corner of the page. If your organization already has access to Availity, your Availity administrator can grant you access to “authorization and referral request” for submission capability and “authorization and referral inquiry” for inquiry capability. You can then find our tool under Patient Registration > Authorizations & Referrals. From this area, you can select the authorizations or authorization/referral inquiry option as appropriate.

### Whom can I contact with questions?

For questions regarding our ICR tool, please contact your local Network Relations representative. For questions on accessing our tool via Availity, call Availity Client Services at 1-800-AVAILITY. Availity Client Services is available Monday-Friday from 8 a.m.-7 p.m. ET (excluding holidays) to answer your registration questions.

### What benefits/efficiencies does the ICR provide?

- **You are automatically routed to our ICR.** Once the ICR is available, when you go to *Authorizations* in the Availity Web Portal, you are automatically routed to the ICR in order to begin your prior authorization request.
- **You can determine if prior authorization is needed.** For most requests, when you enter patient, service and provider details, you will receive a message indicating whether or not review is required.
- **You will have inquiry capability.** Ordering and servicing physicians and facilities can locate information on preauthorization requests for those they are affiliated with; this includes requests previously submitted via phone, fax, ICR or another online tool (e.g., AIM Specialty Health®, OrthoNet LLC, eReview).
- **The ICR is easy to use.** You can submit outpatient and inpatient requests for services online using the same, easy-to-use functionality.
- **The ICR reduces the need to fax.** The ICR allows text detail as well as images to be submitted along with the request. Therefore, you can submit requests online and reduce the need to fax medical records.
- **There is no additional cost to you.** The ICR is a no-cost solution that’s easy to learn and even easier to use.
- **You can access the ICR tool almost anywhere.** You can submit your requests from any computer with internet access. (Note: We recommend you use Internet Explorer 11, Chrome, Firefox or Safari for optimal viewing.)
- **You receive a comprehensive view of all your preauthorization requests.** You have a complete view of all the utilization management requests you submitted online, including the status of your requests and specific views that provide case updates and a copy of associated letters.

## Behavioral health provider survey

Amerigroup is committed to finding the best ways possible to support our members and providers, and you can help! We are looking to identify areas of expertise or services for which you are licensed and have at least two years of clinical experience. To make the collection of this information easy, we have created a short online survey; all you need to do is follow the link/instructions below. The information collected will be used to help us locate services for members more efficiently.

The *Behavioral Health Areas of Expertise Profile* is designed to capture informational data only. While not all services listed are covered benefits in your state, having complete information on what our providers offer will be valuable should changes occur. Neither your provider application/credentialing nor your provider contract will be impacted or changed based on the information you supply on the profile. Any changes or amendments to credentialing or a provider contract must be requested through Provider Relations.

### You can access the online survey below:

- [Behavioral health facilities](#)
- [Behavioral health individual practitioners and medical groups](#)

You may also access the survey via the provider website (<https://providers.amerigroup.com/FL> > Provider Resources & Documents > Behavioral Health > Behavioral Health Facility Survey or Behavioral Health Practitioner Survey).

For your convenience, you can include up to five locations per survey. For behavioral health facility practitioners, if you have more than five locations, please complete an additional survey for the remaining locations. For behavioral health individual practitioners, please complete one survey for every practitioner in your organization.

Your response is critical in helping us match your services to our members' needs. If you have questions about completing the survey or would like a paper copy of the survey, please contact Provider Relations.

# Reimbursement Policies

## New Policy

### Modifier 26 and TC: Professional and Technical Component

(Policy 15-004, effective 07/01/17)

Amerigroup allows reimbursement of the professional component and technical component of a global procedure or service when appended with Modifier 26 and Modifier TC.

#### Professional Component (Modifier 26)

The professional component:

- Is used to indicate when a physician or other qualified health care professional renders only the professional component of a global procedure or service
- Includes the supervision and interpretation portion of a procedure and the preparation of a written report

#### Technical Component (Modifier TC)

The technical component includes the technician, equipment, supplies and institutional charges associated with the performance of the service or procedure.

Unless otherwise indicated in the policy, when a physician or other qualified health care professional performs a service in a facility, only the facility may be reimbursed for technical component of the service; facility is defined in exhibit A. To view Exhibit A, refer to the Modifier 26 and TC: Professional and Technical Component reimbursement policy at <https://providers.amerigroup.com>. The physician or other qualified health care professional should make an arrangement with the facility for reimbursement to perform any technical components of a service.

Please note that portable X-ray suppliers should bill only for the technical component by appending Modifier TC.

#### Global Procedure

In the absence of Modifier TC and Modifier 26, the physician or other qualified health care professional will be reimbursed for the global procedure if they performed both the professional component and technical component of that service. Amerigroup will reimburse the global procedure of newborn hearing screening codes performed in a facility (defined in Exhibit A within the policy).

Amerigroup does not allow reimbursement for use of Modifier 26 or Modifier TC when:

- It is reported with an Evaluation and Management (E&M) code
- There is a separate standalone code that describes the professional component only, technical component only or global test only of a selected diagnostic test

Amerigroup reserves the right to perform postpayment review of claims submitted with Modifier 26 or Modifier TC.

For additional information and to view Exhibit A, refer to the Modifier 26 and TC: Professional and Technical Component reimbursement policy at <https://providers.amerigroup.com> > Quick Tools > Reimbursement Policies > [Medicaid/Medicare](#).

FL-NL-0020-16

## Policy Update

### Reimbursement for Reduced and Discontinued Services

(Policy 10-003, effective 04/27/2015)

Amerigroup allows reimbursement to professional providers and facilities for reduced or discontinued services when appended with the appropriate modifier. Amerigroup in Florida does not recognize Modifiers 73 and 74.

Modifier 52 indicates procedures for which services performed are significantly less than usually required. Reimbursement is reduced to 50 percent of the applicable fee schedule or contracted/negotiated rate. Do not report Modifier 52 on Evaluation & Management (E&M) and consultation codes.

Modifier 53 indicates the physician elected to terminate a surgical or diagnostic procedure due to extenuating circumstances that threatened the well-being of the patient. Reimbursement is reduced to 25 percent of the applicable fee schedule or contracted/negotiated rate. Modifier 53 is not applicable for facility billing and is not valid when billed with E&M or time-based codes.

For additional information and/or applicable modifier rules, refer to the Reimbursement for Reduced and Discontinued Services reimbursement policy at <https://providers.amerigroup.com> > Quick Tools > Reimbursement Policies > [Medicaid/Medicare](#).

FL-NL-0010-16

## Policy Update

### Modifier Usage

(Policy 06-006, effective 08/01/16)

Reimbursement for covered services provided to eligible members when billed with appropriate procedure codes and appropriate modifiers is based on the code-set combinations submitted with the correct modifiers. The use of correct modifiers does not guarantee reimbursement. The use of certain modifiers requires the provider to submit supporting documentation along with the claim. In the absence of state-specific modifier guidance, we will default to CMS guidelines.

Refer to the Exhibit A: Reimbursement Modifiers Listing for descriptions and guidance on documentation submission. For additional information, refer to the Modifier Usage reimbursement policy at <https://providers.amerigroup.com> > Quick Tools > Reimbursement Policies > [Medicaid/Medicare](#).

FL-NL-0013-16

## Policy Update

### Modifier 91: Repeat Clinical Diagnostic Laboratory Test

(Policy 06-020, effective 07/01/17)

Amerigroup allows reimbursement of claims for repeat clinical diagnostic laboratory tests appended with Modifier 91 and is based on 100 percent of the applicable fee schedule or contracted/negotiated rate.

Medical documentation may be requested to support the use of Modifier 91, and failure to use the modifier appropriately may result in denial of the repeated laboratory test as a duplicate service. It is inappropriate to use Modifier 91 when only a single test result is required.

Refer to the Modifier 91: Repeat Clinical Diagnostic Laboratory Test reimbursement policy at <https://providers.amerigroup.com> > Quick Tools > Reimbursement Policies > [Medicaid/Medicare](#).

FL-NL-0014-16

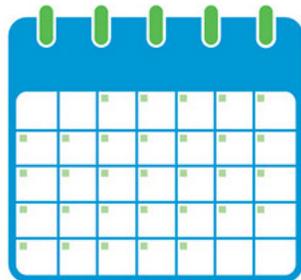

## Policy Reminder

### Claims Timely Filing

(Policy 06-050, originally effective 07/01/2013)

To be considered for reimbursement, the initial claim must be received and accepted by the following standard:

- Six months for participating providers and facilities
- 365 days for nonparticipating providers and facilities

If services are rendered on consecutive days, such as for a hospital confinement, the limit will be counted from the last day of service. Limits are based on calendar days unless otherwise specified. Services denied for failure to meet timely filing requirements are not subject to reimbursement unless the provider presents documentation proving a clean claim was filed within the applicable filing limit.

For additional information, refer to the Claims Timely Filing reimbursement policy at <https://providers.amerigroup.com> > Quick Tools > Reimbursement Policies > [Medicaid/Medicare](#).

FL-NL-0012-16

## Policy Reminder

### Split-Care Surgical Modifiers

(Policy 11-005, effective 08/01/16)

Reimbursement of **surgical codes** appended with “split-care modifiers” is allowed and based on a percentage of the fee schedule or contracted/negotiated rate for the surgical procedure. The percentage is determined by which modifier is appended to the procedure code:

- Modifier 54 (surgical care only): 50 percent
- Modifier 55 (postoperative management only): 30 percent
- Modifier 56 (preoperative management only): 20 percent

Included in the global surgical package are preoperative services, surgical procedures and postoperative services. Total reimbursement for a global surgical package is the same regardless of how the billing is split between the different physicians involved in the member’s care.

Claims received with split-care modifiers after a global surgical claim is paid will be denied. Assistant surgeon and/or multiple procedure rules and fee reductions apply when an assistant surgeon is used and/or multiple procedures are performed.

For more information, refer to the Split-Care Surgical Modifiers reimbursement policy at <https://providers.amerigroup.com> > Quick Tools > Reimbursement Policies > [Medicaid/Medicare](#).
