

Our Real Solutions[®] Healthy Rewards program helps you increase your quality scores while our members earn rewards.

Our new Healthy Rewards program helps our members earn \$10, \$20 or \$30 for their very own Healthy Rewards account by completing certain healthy activities. At the same time, you increase your practice’s quality scores by providing them with the health screenings, exams, tests and medications they need.

Effective April 1, 2016, every time our members complete a healthy activity, they get dollars added to their Healthy Rewards card. They can then spend these Healthy Rewards dollars at specific retailers on a variety of approved over-the-counter items they can use to stay healthy.

To help you in your practice, most of our Healthy Rewards activities are tied to HEDIS[®] scores and health initiatives. They include:
