2017 Patient360 Overview

We are offering a Patient360 webinar for the Amerigroup Kansas, Inc. provider network. Patient360 is a tool we refer to as a dashboard — giving you a snapshot of a patient’s health and treatment history and helping facilitate care coordination. The dashboard contains member information such as activity alerts, inpatient admissions, authorizations, emergency department admissions, lab results, and pharmacy and office visits. Patient360 is important because it allows the billing team to review authorizations for members. It also allows the clinical team to see key health history information for members in their care.

Registration is required. Please register for the session you would like to attend by selecting the desired date below. If multiple people in one office would like to attend in one centralized location, only the person whose computer will be used for the webinar needs to register. You will receive a reminder email before the webinar. A link to the webinar session and the dial-in information will be included in the reminder email.

The call-in number is 1-866-308-0254, participant code: 211 434 4510.

Date:	Time:
Thursday, April 13, 2017	9 a.m.-10 a.m.
Thursday, July 13, 2017	3 p.m.-4 p.m.
Thursday, October 12, 2017	9 a.m.-10 a.m.

Select the date that will work for you and register here:
