

# Improving EPSDT screening for members

Education for primary care providers

# What is EPSDT?

**Early and Periodic Screening, Diagnosis and Treatment (EPSDT) is Medicaid's comprehensive and preventive child health program for individuals under the age of 21.**

- **Early** - Identifying problems early, starting at birth
- **Periodic** - Checking children's health at periodic, age-appropriate intervals
- **Screening** - Doing physical, mental, developmental, dental, hearing, vision and other screening tests to detect potential problems
- **Diagnosis** - Performing diagnostic tests to follow up when a risk is identified
- **Treatment** - Treating the problems found

Note: In markets where Amerigroup\* offers CHIP benefits, the age requirement may vary.

\*In Louisiana, Amerigroup Louisiana, Inc. In Texas, Amerigroup members in the Medicaid Rural Service Area are served by Amerigroup Insurance Company; all other Amerigroup members are served by Amerigroup Texas, Inc. In Washington, Amerigroup Washington.

# What is EPSDT?

(continued)

- Defined by law as part of the Omnibus Budget Reconciliation Act of 1989 (OBRA '89) legislation
- Requires states to cover all services within the scope of the federal Medicaid program
- Includes periodic screening, vision, dental and hearing services among its requirements
- Requires (per Section 1905(r)(5) of the Social Security Act) that any medically necessary health care service listed in Section 1905(a) be provided to an EPSDT recipient even if the service is not available under the state's Medicaid plan to the rest of the Medicaid population

Washington	EPSDT	Kansas	KAN Be Healthy

# Why is it important?

- **Focus attention on early prevention and treatment**
- **The program consists of two mutually supportive components:**
  1. Assuring the availability and accessibility of required health care resources
  2. Helping Medicaid recipients and their parents or guardians effectively use these resources

# EPSDT benefits

# Treatment and follow-up care

- When a screening service indicates the need for further evaluation and diagnosis, a referral or treatment is required without delay
- Evaluation, diagnosis and/or treatment may be provided at the time of the screening visit if the health care professional is qualified to provide the services
- Follow-up care can be provided by:
  - Primary care providers (e.g., family physicians or pediatricians)
  - Specialists (e.g., neurologists, ophthalmologists and audiologists)
  - Other health professionals (e.g., dentists, advanced practice nurses, psychologists and nutritionists)
  - Community agencies

# How to report EPSDT services

- Providers must bill Amerigroup using correct coding guidelines to ensure accurate reporting for EPSDT services
- Some states require providers to submit information directly to the state's immunization registries
- Enroll in your state's Vaccines for Children program
- Amerigroup regularly exchanges data with state immunization registries and lead registries where applicable

# Amerigroup outreach program

- Preventive health services reminder (annual birthday reminder)
- EPSDT overdue service reminder postcard
- Provider letters/overdue EPSDT service listing for members
