

Medicare plans move compound drugs off formulary beginning January 1, 2019

Beginning January 1, 2019, Medicare Advantage plans will move compounded drugs to non-formulary with the exception of home infusion drugs. Group-sponsored Medicare Advantage members will continue to have compounded drug coverage; these drugs will require prior authorization. Compounded home infusion drugs will continue to be covered for both Medicare and group-sponsored members without prior authorizations. Members and/or providers can request a non-formulary exception for compounded drugs.
