

Provider Update

Complete Your Medicare Advantage AIM OptiNet® Registration for X-ray, Ultrasound or High-Tech Imaging Services

All participating providers who provide imaging services must complete registration for AIM's online registration tool, **OptiNet**. **OptiNet** will collect modality-specific data from providers who render X-ray, ultrasound (abdominal/retroperitoneum, gynecological and obstetrical services only at this time), Magnetic Resonance (MR), Computed Tomography (CT), nuclear medicine (NUC), positron emission tomography (PET) and echocardiograph imaging services. Areas of assessment include facility qualifications, technician and physician qualifications, accreditation, equipment and technical registration.

These data will be used to calculate site scores for providers who render imaging services for our Medicare Advantage members.

All participating providers who provide imaging services, including x-rays and ultrasounds as noted above, must complete the registration. Providers who do not register, who score less than 76 or who do not complete the survey by Jan. 1, 2017 will receive a line-item denial for the technical component of the outpatient diagnostic imaging service only.

Learn more: Attend a webinar

Amerivantage* continues to offer webinars to help providers complete their **OptiNet**® surveys. Learn how to:

- **Access the OptiNet Assessment**
- **Copy previously completed OptiNet Assessments to your Amerivantage Medicare Advantage account**
- **Complete a new AIM OptiNet registration**
- **Interpret and improve your site score**

Choose one of the sessions below to register for the webinar.
