

AIM Musculoskeletal program expansion

Effective November 1, 2020, AIM Specialty Health® (AIM)*, a specialty health benefits company, will expand the AIM Musculoskeletal program to perform medical necessity reviews for certain elective surgeries of the small joint for Medicare Advantage patients, as further outlined below.

AIM will follow the Amerigroup clinical hierarchy for medical necessity determination. For Medicare Advantage (MA) products, AIM makes clinical appropriateness based on CMS National Coverage Determinations, Local Coverage Determinations, other coverage guidelines, and instructions issued by CMS and legislative benefit changes. Where the existing CMS guidance provides insufficient clinical detail, AIM will determine medical necessity using an objective, evidence-based process.

Prior authorization requirements

For services scheduled on or after November 1, 2020, providers must contact AIM to obtain prior authorization for the services detailed below. Providers are strongly encouraged to verify they have received a prior authorization before scheduling and performing services.

Detailed prior authorization requirements are available to contracted providers by accessing the Availity Portal* at www.availity.com. Contracted and non-contracted providers may call Provider Services at the phone number on the back of the member's ID card for prior authorization requirements or additional questions as needed.
