

AIM OptiNet imaging services initiative postponed

Recent issues of *Network Update* and previous Important Medicare Advantage Updates portal postings have included information about an initiative administered by AIM Specialty Health® to collect information about imaging capabilities of our individual Medicare Advantage providers. This initiative has been postponed from April 1, 2017 to May 1, 2017. Medicare Advantage providers will not be subject to the requirement to have a specific OptiNet score to be reimbursed for outpatient diagnostic imaging services at this time. Although there is no reimbursement impact at this time, Amerigroup continues to encourage network providers to submit imaging services data for the AIM Specialty Health initiative. The provider registration is available online at www.aimspecialtyhealth.com/goweb.

If you have not yet registered, registration is available online via the AIM *ProviderPortal*_{SM} (registration required). To access:

1. Go to www.aimspecialtyhealth.com/goweb.
2. Select Amerigroup Medicare Advantage from the drop down menu.
3. Log in to *ProviderPortal*.
4. Select "Access My OptiNet Registration" from the *ProviderPortal* home page to begin your registration.

For additional assistance with registration or your score, you may also call AIM toll free at 1-800-252-2021, option 3, Monday-Friday, 8 a.m.-7 pm ET.

All participating Amerigroup Amerivantage (Medicare Advantage) providers who provide imaging services must complete registration for AIM's online registration tool, *OptiNet*. *OptiNet* will collect modality-specific data from providers who render X-ray, ultrasound (abdominal/retroperitoneum, gynecological and obstetrical services only at this time), magnetic resonance (MR), computed tomography (CT), nuclear medicine (NUC), positron emission tomography (PET) and echocardiograph imaging services. Areas of assessment include facility qualifications, technician and physician qualifications, accreditation, equipment, and technical registration.

These data will be used to calculate site scores for providers who render imaging services for our individual Amerigroup Amerivantage members.

All participating providers who provide imaging services, including X-rays and ultrasounds as noted above, must complete the registration. Providers who do not register, who score less than 76 or who do not complete the survey will either receive a line-item denial for the

The information in this update may be an update or change to your provider manual. Find the most current manual at:

In New Mexico, Amerigroup Community Care of New Mexico, Inc. In Texas, Amerigroup members in the Medicaid Rural Service Area are served by Amerigroup Insurance Company; all other Amerigroup members are served by Amerigroup Texas, Inc. In Washington, Amerigroup Washington, Inc.

Amerivantage is a DSNP plan with a Medicare contract and a contract with the State Medicaid program. In New Mexico: Amerivantage is an HMO with a Medicare contract. Enrollment in Amerivantage depends on contract renewal.

technical component of the outpatient diagnostic imaging service only or receive a notification of overpayment. This includes providers who have delegated risk arrangements and who may see Amerigroup Amerivantage members outside of those risk arrangements.

Participating providers who have already completed the survey but scored less than 76 can use the online registration at any time to update their information and improve their score. All providers, including those who score less than 76, will receive individualized information they can use to improve their score.

If you have already completed an OptiNet assessment, please ensure that you keep your registration up to date. Expiring data could lead to a negative impact in your modality scores.

Facilities billing on a UB-04 claim form will be excluded from line item denials at this time.
