Quarterly Update to the Medicare Physician Fee Schedule Database (MPFSDB) - April Calendar Year (CY) 2016 Update

Provider Types Affected

This MLN Matters® Article is intended for physicians, other providers, and suppliers who submit claims to Medicare Administrative Contractors (MACs) for services provided to Medicare beneficiaries.

Provider Action Needed

Change Request (CR) 9531 amends payment files that were issued to your MAC based upon the CY 2016 Medicare Physician Fee Schedule (MPFS) Final Rule published in the Federal Register on November 16, 2015. These payment files are to be effective for services furnished between January 1, 2016, and December 31, 2016. Please make sure your billing staff is aware of these changes.

Background

Section 1848(c)(4) of the Social Security Act authorizes the Secretary to establish ancillary policies necessary to implement relative values for physicians' services.

MACs will not search their files to either retract payment for claims already paid or to retroactively pay claims, however, they will adjust claims that you bring to their attention.

The key changes for the April update that are effective as of January 1, 2016 are as follows:

- CPT/HCPCS code G0464 is assigned a procedure status of I;
- Code 10030 is assigned Global period days of 000;
- Code 77014 is assigned a PC/TC Indicator of 1; and
- Code 80055 is assigned a procedure status of X.
