8. I have a fever, cough, shortness of breath. I think I may have coronavirus. Will getting tested, treatment and preventive care for coronavirus (COVID-19) impact my immigration application under the public charge test?

No, federal officials will **not** consider coronavirus (COVID-19) *testing, treatment, or preventive care (including a vaccine if a vaccine becomes available)* as part of a public charge inadmissibility determination, even if paid for by a public benefit like Medicaid. In addition, coverage in the DC Healthcare Alliance or Immigrant Children’s Program should not affect consideration of whether an individual is a “public charge.” For more information see <https://dhcf.dc.gov/release/public-notice-public-charge-rule-fags-covid-19-information>
