2015 Florida Medicare Advantage Plan Changes

Dear Healthcare Provider,

Annual benefits changes for Medicare Advantage plan members will be effective January 1, 2015. Each year, we renew our contract with the Centers for Medicare and Medicaid Services (CMS) and CMS re-evaluates and approves the benefits we'll offer to our Medicare Advantage members for the upcoming year.

The below changes apply to members enrolled in Amerivantage Classic + Rx HMO and Amerivantage Specialty + Rx SNP plans. You can help members manage their health care costs by being aware of these changes. In addition, remember to check the Member identification card at the beginning of each calendar year, as the member may have changed plans.

New Plans and Service Area Changes:

- The Touch Institutional Special Needs Plan (HMO SNP) will be non-renewing for 2015. This non-renewal impacts Broward and Dade counties.

Diabetic Supplies:

Effective January 1, 2015, all of our individual Medicare Advantage plans will only cover certain diabetic supplies if they are purchased at one of our network pharmacies or through our mail-order service. Durable Medical Equipment (DME) providers as well as physicians will no longer be able to bill for these supplies.

HCPC codes that will no longer be covered when purchased through a DME provider or other physicians:

- A4253 blood glucose test strips
- E0607 home blood glucose monitor
- E2100 blood glucose monitor with integrated voice synthesizer
- E2101 blood glucose monitor with integrated lancing/blood sample

Members impacted by this change will be notified in October through their Annual Notice of Change and Evidence of Coverage plan benefit materials.

To be covered for a \$0 copay, the members must purchase these supplies at an in-network retail or mail-order pharmacy supplier.

Covered blood glucometers and blood glucose test strips in 2015:

- ✓ LifeScan, Inc., OneTouch®
- ✓ Roche Diagnostics, ACCU-CHEK®
- ✓ A limit of 100 blood glucose test strips per month

Other blood glucometer or blood glucose test strip brands or quantities of more than 100 test strips per month are not covered unless you as the doctor or provider tell us another brand or a larger quantity is medically necessary for the member's treatment, no other brand or larger quantity limit will be covered.

Provider Update

- If our member is currently using LifeScan, Inc, OneTouch® or Roche Diagnostics, ACCU-CHEK® blood test strips or glucometer products and using an in-network retail or mail-order pharmacy supplier, you don't need to do anything!
- If our member is not using LifeScan, Inc, OneTouch® or Roche Diagnostics, ACCU-CHEK® blood test strips or glucometer products or using an in-network retail or mail-order pharmacy supplier, then our member will need to get new prescriptions for the supplies by January 1st for these claims to be covered by us.
- You should discuss these coverage changes and possible new prescriptions with our member/your patient. If it is medically necessary for them to continue using a different brand of blood test strips or glucometer and/or more than 100 blood test strips per month, you will need to communicate this to us by requesting an exception. If your patient purchases their supplies through the pharmacy or the ESI mail-order service exceptions may be requested by calling 1-800-338-6180.

New Year! New Formulary Changes!

Each year we evaluate our benefits and formulary and may make changes to update them. Formulary changes in the upcoming year include: tier changes, drug removals, and new Prior Authorization and Quantity Limit requirements.

Your patients will have formulary changes and will need your help to ensure they get their needed treatments at the most affordable cost.

Please encourage your patients to review the 2015 formulary information within their Annual Notice of Change (ANOC) mailing, or to view the information online when it is available, beginning October 1. Ask them if the coverage for any of their prescriptions has been changed, and consider alternative medications in a lower cost-sharing tier that may meet their needs.

Pharmacy Network Changes:

For 2015 plans will be moving from the Caremark pharmacy network to ExpressScripts. The Express Scripts pharmacy network includes preferred and other network retail pharmacies. Members save more by paying a lower cost-sharing amount at preferred cost-sharing pharmacies. Our preferred cost-sharing pharmacies include CVS/Pharmacy (participating pharmacies include CVS and Longs Drugs), Giant Eagle Pharmacy, Hannaford Brothers (participating pharmacies include Hannaford and Food Lion), Harris Teeter Supermarkets, Kroger (Kroger Co. participating preferred pharmacies include Kroger, Fred Meyer, King Soopers, City Market, Fry's, Smith's, Dillons, Ralph's, QFC, Baker's, Scott's, Owen's, Pay Less, Gerbes and JayC), Target and Wal-Mart (Walmart participating

preferred pharmacies include Walmart, Neighborhood Market and Sam's Club. Members can fill a prescription at a network retail pharmacy, but their cost-sharing amount may be higher.)

*Note regarding members on a SNP plan: Our network includes pharmacies that offer standard cost sharing and pharmacies that offer preferred cost sharing. Members in a SNP plan may go to either type of network pharmacy to receive their covered prescription drugs. Their costs will be the same if they use a pharmacy that offers standard cost sharing or a pharmacy that offers preferred cost sharing.

The 2015 Rx Benefit changes include:

- Tier 6 has select care drugs at a \$0 for the following conditions: high blood pressure, high cholesterol and diabetes and will have the following drugs on it: GLIPIZIDE, LISINAPRIL, LOSARTAN POTASSIUM, METFORMIN HCL, and SIMVASTATIN.
- All plans must contact ESI for prior authorizations on Part D drugs. Exceptions may be requested by calling 1-800-338-6180.

Insulin Exclusivity:

As a reminder for 2015 Individual MAPD plans have an insulin exclusivity contract with Eli Lilly, the manufacturer of Humulin and Humalog human insulins. Other insulins are considered non-formulary and are not eligible for coverage.

Balance Billing Reminder:

The Centers for Medicare and Medicaid Services and our plan does not allow you to "balance bill" Medicare Advantage members for Medicare covered services. CMS provides for an important protection for Medicare beneficiaries and our members such that, after our members have met any plan deductibles, they only have to pay the plan's cost-sharing amount for services covered by our plan. As a Medicare provider and/or a plan provider, you are not allowed to balance bill members for an amount greater than their cost share amount. This includes situations where we pay you less than the charges you bill for a service. This also includes charges that are in dispute.

Providers should reference the member's ID card for changes at every visit to help ensure proper billing. You can also assist your patients by passing on any ID card prefix or benefit change information to any ancillary providers who will be asked to serve your patient.

Claim payment guidelines: Amerivantage Specialty + Rx (HMO SNP):

To fulfill state and federal contractual requirements, this plan applies the Medicare statutory amounts to Medicare covered services. The remaining Medicare Advantage deductible, coinsurance or copayment amounts are then applied to the member's Medicaid benefits; those claims are processed subject to Medicaid processing guidelines.

Under Medicaid, additional payment may be available dependent upon the Medicaid rate of reimbursement. If the Medicaid rate of reimbursement is more than the filed Medicare benefit, the difference will be paid to the provider. If the Medicaid rate is less than what the filed Medicare benefit has already paid on that claim, no additional payment will be made. The State of Florida Agency for Health Care Administration (AHCA) has contracted us to process claims for Medicare cost sharing on their behalf in accordance with state guidelines for payment of such claims. Providers are prohibited from balance billing members for any portion of that Medicare cost share that is deemed not covered under their Medicaid benefit.

What Does the Annual Wellness Visit Cover?

All of our Medicare Advantage plans cover the AWW. Members are encouraged to use this annual benefit as one way to help assess current health status and future needs.

For the first visit, providers should bill G0438 for the AWW which includes the Personalized Prevention Plan Service. Thereafter, providers should bill G0439 for the AWW and Personalized Prevention Plan Service, subsequent visit.

What if Additional Services Are Provided at the Same Time As the AWW?

If other evaluation and management services are provided in conjunction with the AWW, use CPT Modifier 25 (Significant, separately identifiable evaluation and management service by the same physician on the same day of the procedure or other service) as appropriate.

Prior Authorization Updates for Medicare Advantage Plans:

Providers are required to periodically review and comply with the latest Medicare Advantage Prior Authorization requirements found at;

Referral Process Updates for Individual Medicare Advantage Plans:

In most situations, our members may need to receive a referral from their PCP before they can use specialists in the Plan's network. Examples of specialists include Cardiologists, Dermatologists, Orthopedic Surgeons, Oncologists and Urologists. However, referrals from a PCP
