

This is an update about information in the provider manual. For access to the latest provider manual, go online to <https://providers.amerigroup.com>.

Interactive Care Reviewer tool: Register and start using today!

Summary: Beginning mid-April, your practice can initiate online preauthorization requests for Georgia Families members more efficiently and conveniently with our Interactive Care Reviewer (ICR) tool available through the Availity Web Portal. The ICR offers a streamlined process to request inpatient and outpatient procedures through the Availity Web Portal.* There are no changes to the preauthorization capabilities on the provider website (<https://providers.amerigroup.com/GA>).

* For preauthorization requests for Medicaid members where the request type = inpatient and the case type = maternity, the ICR tool will display the following message on the patient confirmation page: Precertification must be submitted through the GHP website at <https://www.mmis.georgia.gov/portal>.

How do I gain access to the ICR?

You can access our ICR tool via the Availity Web Portal. If your organization has not yet registered for Availity, go to www.availity.com and select **Register** in the upper right-hand corner of the page. If your organization already has access to Availity, your Availity administrator can grant you access to “authorization and referral request” for submission capability and “authorization and referral inquiry” for inquiry capability. You can then find our tool under Patient Registration > Authorizations & Referrals. From this area, you can select the authorizations or authorization/referral inquiry option as appropriate.

Whom can I contact with questions?

For questions regarding our ICR tool, please contact your local Network Relations representative. For questions on accessing our tool via Availity, call Availity Client Services at 1-800-AVAILITY (1-800-282-4548). Availity Client Services is available Monday-Friday from 8 a.m.-7 p.m. ET (excluding holidays) to answer your registration questions.

What benefits/efficiencies does the ICR provide?

- **You are automatically routed to our ICR.** Once the ICR is available, when you go to *Authorizations* in the Availity Web Portal, you are automatically routed to the ICR in order to begin your prior authorization request.
- **You can determine if prior authorization is needed.** For most requests, when you enter patient, service and provider details, you will receive a message indicating whether or not review is required.
- **You will have inquiry capability.** Ordering and servicing physicians and facilities can locate information on preauthorization requests for those they are affiliated with; this includes requests previously submitted via phone, fax, ICR or another online tool (e.g., AIM Specialty Health®, OrthoNet LLC, eReview).

- **The ICR is easy to use.** You can submit outpatient and inpatient requests for services online using the same, easy-to-use functionality.
- **The ICR reduces the need to fax.** The ICR allows text detail as well as images to be submitted along with the request. Therefore, you can submit requests online and reduce the need to fax medical records.
- **There is no additional cost to you.** The ICR is a no-cost solution that's easy to learn and even easier to use.
- **You can access the ICR tool almost anywhere.** You can submit your requests from any computer with internet access. (Note: We recommend you use Internet Explorer 11, Chrome, Firefox or Safari for optimal viewing.)
- **You receive a comprehensive view of all your preauthorization requests.** You have a complete view of all the utilization management requests you submit online, including the status of your requests and specific views that provide case updates and a copy of associated letters.
