

Provider Update

Suspension of providers who did not revalidate their enrollment information

Background: The Affordable Care Act mandates that states revalidate the enrollment of all providers at least every five years. Beginning in April 2014, the Georgia Department of Community Health (DCH) and Hewlett-Packard Enterprise Services began sending letters to providers requiring that they revalidate their enrollment information within 60 days of the date on the letter. Providers who failed to revalidate in accordance with the notification are subject to termination from Fee for Service (FFS), Georgia Families and Georgia Families 360° effective October 1, 2015.

★ **What this means to you:** Providers who receive revalidation letters from Georgia DCH and do not revalidate their enrollment information by September 30, 2015, will be terminated effective October 1, 2015.

What is the impact of this update?

Effective October 1, 2015, DCH will terminate those providers from the Georgia Medicaid/PeachCare for Kids® program who are sent revalidation letters and do not revalidate their enrollment information within the 120-day time period. Termination from the Georgia Medicaid/PeachCare for Kids® program affects your ability to bill care management organizations. **Failure to revalidate your enrollment will not only cause suspension from Medicaid FFS but also termination from Medicaid Managed Care.**

A report of providers who have not revalidated their enrollment can be found online through the Georgia Medicaid Management Information System by going to www.mmis.georgia.gov and selecting Provider Information/Provider Notices.

What if I need assistance?

If you have questions about this communication, received this fax in error or need assistance with any other item, contact your local Provider Relations representative or call Provider Services at 1-800-454-3730.
