ClaimsCheck[®] upgrade to ClaimsXten[™]

Amerigroup Iowa, Inc. appreciates your participation in our network. Amerigroup uses ClaimCheck[®] 10.2, a comprehensive nationally recognized code auditing system, to ensure consistent physician and facility reimbursement by automatically evaluating provider claims in accordance with accepted industry coding standards. The purpose of this update is to notify you that we are upgrading ClaimCheck 10.2 to ClaimsXten, McKesson's next generation code auditing system. As with ClaimCheck 10.2, ClaimsXten uses rules derived from a combination of CMS coding guidelines, AMA/CPT, Specialty Society guidelines and Amerigroup policy. The upgrade will become effective November 1, 2016.

What is ClaimsXten?

ClaimsXten is an auditing software product from McKesson that in combination with claims processing systems:

- Reinforces compliance with standard code edits and rules
- Ensures correct coding and billing practices are being followed
- Determines the appropriate relationship between thousands of medical, surgical, radiology, laboratory, pathology and anesthesia codes
- Processes those services according to industry standards

Why are we upgrading from ClaimCheck 10.2 to ClaimsXten?

We periodically update our claims logic to:

- Conform to changes in coding standards
- Include new procedure and diagnosis codes

How will the upgrade to ClaimsXten affect you?

Providers will continue to see similar edits as under ClaimCheck 10.2. ClaimsXten has enhanced audit logic and the ability to analyze claims submission history. Outpatient services will be analyzed for such issues as:

- Rebundled or unbundled services
- Multi-channel services
- Mutually exclusive services
- Incidental procedures
- Incorrect use of CPT codes
- Fragmented billing of pre- and postoperative care
- Diagnosis to procedure mismatch
- Upcoded services

Other procedures and categories that are reviewed include:

- Cosmetic procedures
- Obsolete or unlisted procedures
- Age/sex mismatch procedures
- Investigational or experimental procedures
- Procedures being billed with inappropriate modifiers
