

*A message from the Iowa Department of Human Services (DHS), Iowa Medicaid Enterprise (IME).*

Provider enrollment renewal is an Affordable Care Act (ACA) requirement for all providers in order to stay active with the IME and a Managed Care Organization (MCO). This practice helps ensure program integrity. If you have not completed enrollment renewal by June 30, 2017, the IME and MCOs will terminate you as a Medicaid provider. The IME and MCOs will not be able to reimburse you for services if you are not actively enrolled with the IME. If your enrollment is terminated with the IME you will be required to submit new enrollment forms.
