Providers billing for flu vaccine

Summary of change: Effective with dates of service from August 1, 2016, to December 31, 2016, trivalent (ccIV3) (procedure code 90661) will be a covered vaccine for children. The description of procedure code 90661 is: an influenza virus vaccine derived from cell cultures that is subunit, preservative and antibiotic-free.

In addition, 90661 may be used for adults receiving the Flucelvax vaccine between August 1, 2016, and December 31, 2016. A new procedure code (90674) will be available for Flucelvax, and providers will need to begin using this code effective January 1, 2017.
