

## Correction for HEDIS® Maternity Attestation

**NOTE: There is no permitted attestation for HEDIS Prenatal and Postpartum Care.**

The most recent provider newsletter (quarter three) gave incorrect directions about creating an attestation for the HEDIS Prenatal and Postpartum Care (PPC) measure. The article stated that the obstetrics (OB) provider can simply enter the dates for the initial prenatal care visit, the delivery date and the postpartum visit date.

Providers will still be required to have medical records available to be reviewed onsite or submitted if Amerigroup Kansas, Inc. is unable to locate the appropriate claims information to collect the data.
