

KanCare Health Home Program

Background: Health home services help coordinate care for KanCare members who are living with a chronic condition and are at risk for a second or living with a serious mental health condition.

✦ **What this means to you:** We invite you to join our health home network. As an interested provider, please help us assess your capacity to provide health home services by completing the KanCare Health Home Survey and the Preparedness and Planning Tool for Potential Health Home Providers.

Why should you provide health home services?

Health home services provide many positive outcomes for our members. Health home services increase health statuses and quality of life, reduce premature mortality, enhance service quality, reduce hospital inpatient admits and length of stays, reduce emergency department utilization, reduce redundancy in tests and procedures and reduce costs. This is made possible by providing the six core health home services:

- Comprehensive Care Management
- Care Coordination
- Health Promotion
- Comprehensive Transitional Care
- Individual and Family Support
- Referral to Community and Social Support Services

What is your next step?

Please complete the Preparedness and Planning Tool (PPT) for Potential Health Home Providers located at kancare.ks.gov/health_home/providers_materials.htm and return it to sferencik@kdheks.gov.

Please complete the KanCare Health Home Survey located [here](#) and return it to:

Steve Clarke
Amerigroup Kansas, Inc.
9225 Indian Creek Parkway, Suite 400, Building 32
Overland Park, KS 66210.

We will be in contact with you after we have received your completed PPT and survey.

What if I need assistance?

Please submit your questions to KSHealthHome@amerigroup.com or call Member Services at 1-800-600-4441.
