

Provider Update

This is an update about information in the provider manual. For access to the latest provider manual, go online to <https://providers.amerigroup.com/KS>.

Billing for other services for members in psychiatric residential treatment facilities — ICD-10

Summary of change: Having inpatient psychiatric residential treatment facilities (PRTF) available to children and adolescents is an important part of an all-inclusive treatment program. Many services that would normally be planned services that a member in PRTF would need are included in the PRTF per diem rate that is paid to the provider, including behavioral health services. However, services that are considered unplanned may be paid to providers outside of the PRTF per diem. There are three categories of services for members in PRTF:

1. Behavioral health services billed with procedure code and diagnosis code combinations designated by the Kansas Department of Health and Environment (KDHE). These services are considered content of service to the PRTF.
2. Nonbehavioral health services billed with KDHE-designated “planned diagnosis codes,” according to the type of claim (professional, outpatient hospital, inpatient hospital). These services may be paid outside of the PRTF per diem rate and may be billed directly to Amerigroup Kansas, Inc. for consideration.
3. All other services billed that do not fit into the categories above. These would be considered “unplanned” and should be billed to the Kansas Medical Assistance Program (KMAP) directly.

When providing services to PRTF members, claims for diagnosis codes outside of those on the planned services list are to be sent to KMAP:

P.O. Box 3571, Topeka, KS 66601

Claims for diagnosis codes that are on the planned services list should be sent to Amerigroup.

What are unplanned services?

Unplanned services are those that would not typically be expected to happen during the normal course of the member’s stay in PRTF. A few examples of unplanned services would include treatment for appendicitis, broken arm, ingrown toenail or concussion.

Diagnosis codes

Please see the below tables of codes for your use in determining if a claim may be paid by Amerigroup or by KMAP.

What if I need assistance?

If you have questions, please contact your local Provider Relations representative or call our Provider Services team at 1-800-454-3730.

Services listed below are considered all-inclusive to the PRTF per diem rate even if the billing provider is different from the PRTF provider. When one of the following procedure codes is billed with any of the following diagnosis codes for PRTF level of care, the claim will deny “content of service.”
