## How to bill Amerigroup Community Care for vaccines

**Summary:** This notification is a reminder of proper billing for the administration of vaccines. The following immunization administration codes should not be used when billing for vaccination serum codes.

★ **What this means to you:** Administrative CPT codes 90460-90461 and 90471-90474, when billed with vaccination codes, may cause the entire claim to deny because they are not part of the HealthChoice Medicaid fee schedule and will not be covered.

### **How do I bill for a vaccine?**

To ensure that your claim is paid, you must bill the actual vaccine CPT code with an SE modifier when billing for a member 18 years of age and under to indicate that the vaccine is through the Vaccines For Children (VFC) Program. Bill only the vaccine code when submitting a claim for a member 18 years of age or older.

### **What if I need assistance?**

If you have questions about this communication, received this fax in error or need assistance with any other item, contact your local Provider Relations representative or call Provider Services at 1-800-454-3730.
