

Did you know...

Children in low-income neighborhoods are more likely to be obese than those in middle-class or wealthy neighborhoods?

African-Americans account for more than 50 percent of all new HIV infections?

The rate of asthma deaths for Latinos is twice that of Caucasians?

We're committed to reducing these health care disparities and improving health outcomes and know your office is, too. Throughout the year, we will provide opportunities for training and education to help your practice improve access to care and quality of care for the diverse membership we serve.

Earn Rewards and Recognition for Building a Culturally Competent Practice

Promote yourself as the provider of choice for diverse communities with:

- Special designation in the provider directory to market you to our members
