- The Availity Portal offers both a multipayer portal and an EDI clearinghouse. The Availity Portal optimizes the flow of information between health care stakeholders, including professional and facility providers, health plans, pharmacies and others, through a secure web-based exchange. We encourage providers to continue submitting claims through their third-party vendor or clearinghouse.
- Payer Spaces and the payer provider self-service website are accessed from the Availity Portal under the secure, single signon. These sites offer a wide range of online tools and resources to perform daily tasks including but not limited to viewing claim edit rules on ClearClaimConnection™; downloading commonly

used forms, reference materials and provider manuals; and viewing policy and procedure information.
