

Reminder about nursing facility/skilled nursing facility taxonomy code requirements

Summary of change: Effective April 1, 2019, Amerigroup Community Care will strictly enforce the following policy requirement: all claims filed using Revenue Code 0100 (skilled or custodial care) will require appropriate taxonomy codes to determine correct payment. Amerigroup will apply strict requirements for all nursing facility (NF) and skilled nursing facility (SNF) claims.

What does this mean to me?

For all claims received after April 1, 2019, you must submit all NF and SNF (Revenue Code 0100) claims with the taxonomy code that corresponds to the service authorized. The correct codes are:

- NF — taxonomy code 313M00000X
- SNF — taxonomy code 314M00000X

What is the impact of this change?

If you fail to submit the appropriate authorized code listed above, our system may reject the claim or cause it to be paid at a lower reimbursement rate.

NFs and SNFs are also strongly encouraged to verify eligibility of patients on a monthly basis to ensure continued enrollment of the member with Amerigroup and eligibility to receive covered services. This includes ensuring Amerigroup members have not only Medicaid eligibility but also MLTSS eligibility if they are receiving MLTSS services. Amerigroup will not pay for care of noneligible individuals.

What if I need assistance?

If you have questions about this communication or need assistance with any other item, contact your local Provider Relations representative or call Provider Services at 1-800-454-3730.
