

Prior authorization requirement for the use of peripheral vascular angioplasty with stenting

New Jersey will require prior authorization for the use of peripheral vascular angioplasty with stenting for the treatment of occlusive peripheral arterial disease of the lower extremities effective August 1, 2020, (CPT® codes 37220-37235). Currently, all the codes with the exception of the following require prior authorization:

- 37222
- 37223
- 37232
- 37233
- 37234
- 37235

Amerigroup Community Care will now require prior authorization for the full range of codes.
