

Provider data update

Amerigroup Community Care partners with AIM Specialty Health®* (AIM), a leading specialty benefits management company that provides services for radiology, cardiology, genetic testing, oncology, musculoskeletal, rehabilitation, sleep management, and additional specialty areas. **Partnerships like this require that Amerigroup provider demographic information (group or practice name, additional providers added to the group/practice, location) is current and accurate to eliminate provider and member abrasion.**

In the event the provider's demographic information has not been updated in the Amerigroup system, the data will also be missing from the provider data that goes to AIM. Therefore, providers may not be able to locate the requested record in AIM's system. While the provider's information can be manually entered to build a case, the record will appear to be out-of-network, and the case will adjudicate accordingly.

Amerigroup provider data updates flow to AIM via the provider data extract, but the data flow does not work in the reverse back to Amerigroup. It is important that providers make the following changes or updates with Amerigroup, not AIM:

- Group or practice name
- TIN
- NPI
- Address (add/remove location(s), corrections)
- Phone numbers
- Fax numbers
- Any additional changes

If you have questions about this communication or need assistance with any other item, contact your local Provider Relations representative or call Provider Services at **1-800-454-3730**.

* AIM Specialty Health is an independent company providing some utilization review services on behalf of Amerigroup Community Care.
