

## Announcing The Amerigroup Community Care Centers Of Pain Excellence Network

Re: THE AMERIGROUP CENTERS OF PAIN EXCELLENCE NETWORK

Dear Provider,

Amerigroup has partnered with axialHealthcare, a leader in pain care management, to implement the Pain Medication and Care Improvement Program to ensure high quality pain care for Amerigroup members. As part of this program, Amerigroup has created the Centers of Pain Excellence (COPE) Network, comprised of top performing pain care practitioners and facilities.

COPE Network providers are identified using axialHealthcare's advanced analytic review of pain care services and pain medication prescribing and serve as a resource for referring your complex patients in pain. As an Amerigroup provider, you can access the COPE Network directory by logging into Availity using your username and password and navigating to axialHealthcare's Practice Portal through the Payer Space page.

For questions about the Amerigroup Centers of Pain Excellence Network, accessing the COPE Network directory, or becoming a COPE Network provider, please contact axialHealthcare at [providersupport@axialhealthcare.com](mailto:providersupport@axialhealthcare.com).

We look forward to working with you to expand quality pain care access to all Amerigroup members.

Thank you,

Carey Vinson, MD, MPM  
Chief Clinical & Network Officer  
axialHealthcare
