

Subject: Survey notice

Dear Provider:

The Comprehensive Diabetes Care (CDC) for Dilated Retinal Exam (DRE) HEDIS® measure evaluates whether members ages 18 to 75 years old with a diagnosis of diabetes have had a dilated retinal exam completed within the measurement year or the year prior. Amerigroup Community Care is working to improve the current CDC-DRE HEDIS rates and is seeking your feedback on retinal eye cameras. We greatly appreciate your participation in this important quality improvement survey.

You will receive an email from AnthemLive@anthem.com that will contain the link to the survey. If you're able, please complete the online survey by **August 7, 2020**. We greatly appreciate your feedback.

If you have any questions regarding the survey, please contact Ashley Sparks at ashley.sparks@amerigroup.com.

Thank you,

Quality Management Department
Amerigroup Community Care
