

Providers CARE Survey

Looking for ways to improve your patients' outcomes? Take the Providers CARE Survey and tell us about your patients.

The Providers CARE Survey helps us learn more about your patients' needs and lets you share feedback about learning opportunities that may be useful for your practice team. You can fill out the survey by visiting <https://www.tn.gov/tenncare/providers/literacy-communication-cultural-competency-and-disparities-in-health-care.html>.

Your answers will not have your name on them and will be combined with information from other providers.

By taking the survey, you'll give us information about challenges your patients are facing in their communities. Our goal is to help you improve your patients' health by:

C= Connecting them with community resources (like food pantries and housing help).

A= Acting for better health by teaching them about their care needs.

R=Reducing stigma by showing compassion to others and taking time to think about your actions and thoughts about yourself and others.

E= Empowering yourself and others. Take the time to listen to your patients. Treating them with kindness and support can help them take the steps they need for better health and supporting them on their journeys to better health.

Improving health in Tennessee is a team effort. Take the Providers **CARE** Survey and help us learn more about the needs of your patients and learning opportunities that can assist your practice.

Your answers will not have your name on them and will be combined with information from other providers.

Thank you for caring about the health of your community.
