

Revisions to Floor to SNF program for Amerigroup members

Attention hospitals and skilled nursing facilities (SNFs) currently participating in the Medicare Advantage Floor to SNF program for Amerigroup members:

We have been evaluating the criteria for the program and have made revisions to help ensure members are meeting the CMS criteria for SNF placement.

The revisions go into effect on October 14, 2019. Our Utilization Management team will reach out to you to schedule training sessions and provide the new criteria.

If you have any questions, contact your local network team.
