

## Better Health Together

Better Health Together (BHT) has been tasked with aiding our region's behavioral health providers as they make the transition to integrated managed care (IMC). BHT will support providers that are implementing new billing processes and management systems in their electronic health records. BHT will also provide ongoing technical assistance to providers as they implement IMC. Technical assistance will focus on improving administrative processes, tools and technology systems that aid in operating an IMC system.

Visit [www.betterhealthtogether.org/imc-transition](http://www.betterhealthtogether.org/imc-transition) to find information and tools necessary to support your transition. If you have any comments or suggestions, contact Sarah Bollig Dorn at [sarah@betterhealthtogether.org](mailto:sarah@betterhealthtogether.org).
