

# SHARED DECISION-MAKING & BEHAVIORAL HEALTH INTERVENTIONS FOR PATIENTS WITH DEPRESSION

## WHEN

**November 29, 2018**

**7:30 AM—9:00 AM**

When caring for patients with Depression, clinicians often find a common barrier to care is initiation and continuation of recommended treatment. The University of Washington Advancing Integrated Mental Health Solutions (AIMS) Center leadership will present evidence-based solutions to these problems, including:

- Increasing use of shared decision-making strategies
- Offering evidence-based behavioral health interventions
- Addressing barriers to medication non-adherence
