Subject: Multiple Delivery Services

Effective Date: 03/01/18
Committee Approval Obtained: 06/01/18
Section: Surgery

These policies serve as a guide to assist you in accurate claim submissions and to outline the basis for reimbursement if the service is covered by a member’s Amerigroup benefit plan. The determination that a service, procedure, item, etc. is covered under a member’s benefit plan is not a determination that you will be reimbursed. Services must meet authorization and medical necessity guidelines appropriate to the procedure and diagnosis as well as to the member’s state of residence. You must follow proper billing and submission guidelines. You are required to use industry standard, compliant codes on all claim submissions. Services should be billed with CPT codes, HCPCS codes and/or revenue codes. The codes denote the services and/or procedures performed. The billed code(s) are required to be fully supported in the medical record and/or office notes. Unless otherwise noted within the policy, our policies apply to both participating and nonparticipating providers and facilities.

If appropriate coding/billing guidelines or current reimbursement policies are not followed, Amerigroup may:
• Reject or deny the claim.
• Recover and/or recoup claim payment.

Amerigroup reimbursement policies are developed based on nationally accepted industry standards and coding principles. These policies may be superseded by mandates in provider, state, federal or CMS contracts and/or requirements. System logic or setup may prevent the loading of policies into the claims platforms in the same manner as described; however, Amerigroup strives to minimize these variations.

Amerigroup reserves the right to review and revise our policies periodically when necessary. When there is an update, we will publish the most current policy to this site.

Policy
Amerigroup allows reimbursement for multiple births by a same-delivery or combined-delivery method unless provider, state, federal or CMS contracts and/or requirements indicate otherwise. For vaginal or cesarean deliveries involved in multiple births and
performed using a same-delivery or combined-delivery method, professional reimbursement is based on the following rules:

- **Vaginal Deliveries** — Vaginal deliveries involved in multiple births should be billed with Modifier 51. Multiple procedure guidelines will apply. (Please see Multiple and Bilateral Surgery Reimbursement Policy for more information.)

- **Cesarean Deliveries** — Cesarean deliveries involved in multiple births should be billed with Modifier 22. (Please see Modifier 22 Reimbursement Policy for more information.) Multiple procedure guidelines will not apply.

### Exemptions

- Amerigroup Kansas, Inc., in compliance with the Kansas Medical Assistance Program, only reimburses for two deliveries regardless of the delivery method. Multiple procedure guidelines will not apply. For combined-delivery methods, only one delivery of each method will be reimbursed. The use of Modifier 51 and Modifier 22 are not required.

- Amerigroup Community Care in Maryland, in compliance with the Maryland Medical Assistance Program, applies multiple procedure guidelines for reimbursement of multiple births involving cesarean deliveries performed using a same-delivery or combined-delivery method.

- Amerigroup Texas Inc. and Amerigroup Insurance Company, in compliance with the Texas Medicaid Provider Procedures Manual (TMPPM), allows reimbursement for only one delivery or cesarean section in a seven month period, including multiple births.

### History

- Biennial review approved 06/01/18: Policy template updated
